

# 12V-24V automatic conversion inverter

## Overview

---

What is a 12V inverter?

12V Inverter. A 12V inverter is an electrical device that converts 12 volts of DC power into AC power. The input power typically comes from a 12V battery. Modified sine wave power inverter can provide you 110/120V or 220/230V/240V AC power.

What is a 12V/24V DC inverter used for?

Ideal for Rvs, Campers, Solar Systems, Field Work and More Off-Grid Systems.  
\* ★  High Efficiency Inverter : It Can Convert 12v/24v DC Power to 220~240v AC Household Power with AC Outlet and Usb Port.

What is a 24V power inverter?

The power inverter can convert 24V DC to 110V/120V or 220V/230V AC. Equipped with a USB port, the 24V inverter can be used for multi-purpose charging. 24V inverter has multiple safety protection, durable housing, and compact size. Affordable power inverter price, and the shell material is sturdy and the sockets are available in various forms.

Does a solar inverter support 12V and 24v battery input?

This model supports both 12V and 24V battery input, automatically detecting the battery system voltage upon startup. Based on the voltage level, this 4.2 kW solar inverter delivers different rated output power, ensuring optimized performance and energy efficiency.
