### [General discussion about 15a plug requirement](#)

Basically if it is sold with a 15A plug it needs a 15A outlet, manufacturer may have wanted a bit of a safety margin by upgrading to 15A.

### [New 10 AMP oven into existing 15A supply](#)

cheapskateasian writes Further is it easier just to purchase a 15A oven since my wall power supply is already 15A? Just get the oven you want based on features. It's the same ...

### [Changing dual 10A GPO to single 15A?](#)

gdw35 writes Does anyone see any issues with replacing the dual 10A GPO with a single 15A GPO? A year or so ago I had an electrician install a 15 amp GPO in the garage ...

### **15 amp plugs**

Yes, if it is a 15A socket outlet you should take it as a 15A socket for the purposes of MD, not the rated load of the oven / appliance. As it is plug and play, no sparkie is required ...

### Outdoor GPO

15A plugs/sockets have a larger earth pin than 10A. It should be easy enough to see that on a regular 10A outlet all three pins & the holes to accept them are the same size.

## How to connect 15amp Oven

The input to the caravan is a 15a lead, and there is a 15a circuit breaker in the van on the circuit. You may have many powerpoints in the van behind that, and can plug in what ...

[Get Price](#)

## Question about electrical wiring

15A powerpoints need dedicated power cabling. So sharing 3 GPOs + 15A powerpoint on the one power cable (even if it's an appropriately rated cable) is a no-no. Want ...
