

# 300kw energy storage power station equipment

## Overview

---

What is a 50kw-300kw lithium energy storage system?

A 50KW-300KW lithium energy storage system consists of 48-volt modules with capacities ranging from 100Ah to 400Ah. These systems can be paralleled up to 14 units if a larger battery storage system is required.

How to maintain a 300W portable power station?

With regard to maintenance of a 300w portable power station, it is important to take care of the following points: The battery should be treated as if it were a whole. The main thing to do is to treat the battery as if it were a whole. If you have not already done so, then take care of the battery in a clean and dry place.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
