

45A 12V Inverter

Overview

What is the DLS-45 Power Converter?

The DLS-45 Power Converter from IOTA Engineering is a 12V 45 Amp Power Supply Converter that converts nominal 108-132 AC voltage to 13.4 DC voltage for both DC load operation and 12V battery charging. Using state-of-the-art, switch-mode technology, IOTA Power Converters are engineered with the user and variable environmental conditions in mind.

What is a 45A MPPT solar charge controller?

This 45A MPPT solar charge controller with innovative MPPT technology and a remarkable tracking efficiency of up to 99%. With a peak conversion efficiency of 98%, this controller ensures maximum utilization of solar energy and provides optimal charging performance.

What is a PowerMax PM4 series converter?

Powermax PM4 Series Converters are used to convert AC power to DC power. Virtually all electronic devices require converters. They are also used to detect amplitude modulated radio signals. They are also used to supply polarized voltage for welding.

Is the dls-45 battery power converter UL and cul listed?

The DLS-45 is UL and CUL listed. It converts nominal 120V AC voltage to 13.4V DC and draws 9.8AC amps or about 1175VA. As a power supply, the DLS-45 allows the user to operate any appropriate nominal DC load up to its rated output current.

45A 12V Inverter

[45A 12V 24V MPPT Solar Charge Controller](#)

A 45A MPPT solar charge controller is suitable for most types of 12V/24V solar batteries. It boasts a remarkable conversion efficiency of up to 98.1%.
