

60v5 inverter

Overview

What is s5-gc (50-60)K 3 phase string inverter?

S5-GC (50-60)K three-phase series string inverter are suitable for the installation of three-phase input pv system of commercial and industrial PV plants. Adopt 5/6 MPPT design to provide a more flexible configuration scheme and higher generation efficiency. Perfect commercial site monitoring solution, intelligent redundancy fan.

What is a 3 phase string inverter?

50-60kW three phase series string inverter adopt 9/10 MPPT design to provide a more flexible configuration scheme with a smaller environmental impact rate and higher generation efficiency. High power tracking density 130MPPT/MW, 150% DC overloading capability □ Remote & local intelligent IV scan function.

How does a solar inverter work?

The inverter is equipped with MPPT (maximum power point tracking) technology, which continuously monitors and adjusts the electrical load to optimize the amount of energy that can be produced by the solar panels.
