# Africa Communications 5G Base Station Plan

## Overview

---

How many 5G networks are there in Africa?

There are now commercial 5G networks in more than 10 countries in the region, with stakeholders in many more countries expecting commercial 5G to be available in their markets by 2025. By the end of this decade, there will be more than 340 million 5G connections in Africa, equivalent to a fifth of total mobile connections.

Who is involved in 5G in Africa?

There are a number of multilateral stakeholders and organisations that engage with and represent various parts of the 5G ecosystem. In Africa, these include the African Telecommunications Union (ATU), the ITU, the GSMA, Smart Africa and sub-regional digital and communications authorities.

When did 5G start in South Africa?

In 2020, Vodacom and MTN launched the first major 5G networks in the region, offering 5G mobile and fixed wireless access (FWA) services in South Africa and formally kicking off the 5G era in Africa.

Are 5G services available in South Africa?

of 5G services in South Africa. This is due to the collaborative nature of the Forum with various stakeholders being involved. However, respondents feel more research should be conducted, particu
