# Albania Energy Storage Power Supply Purchase Channels

## Overview

---

Does Albania have a national strategy of energy?

Albania's Ministry of Energy recently launched an auction round for the construction of the country's first large-scale solar plant. The country also has a National Strategy of Energy, which aims to develop an effective energy sector that guarantees security.

Does Albania have a power supply security problem?

Albania is a net importer of electricity; power supply security is a challenge. Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable.

Is Albania a 'green energy'-driven economy?

Plan "Albania 2030" has set Renewable Energy as the key priority, for developing a "Green Energy"- driven economy. Albania has a considerable potential for Renewable Energy Sources (RES). The use of such sources for energy production requires a long-term strategy for implementation of three objectives of energy policies of.

Who is responsible for electricity production in Albania?

Albanian Power Corporation (KESH): The Albanian Power Corporation is the state-owned company responsible for electricity generation. KESH operates hydropower plants and contributes significantly to Albania's electricity production. 6. Albanian Transmission System Operator (OST SH.A.):
