

Algerian solar panel assembly factory

Overview

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules. Manufacturing hub.

How much solar power does Algeria have?

By the end of 2023, Algeria had 437 MW of solar generation capacity, according to the national Commission for Renewable Energies and Energy Efficiency (CEREFÉ). The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m²/year in the north and 2,263 kWh/m²/year in the south.

How can Algeria achieve its energy objectives?

Algeria is putting in place major means to achieve its energy objectives, notably the production of electricity from solar energy. According to the first annual report of the Commissariat for Renewable Energies and Energy Efficiency (Cerefe), two new factories for the production of solar panels will soon see the light of day in Algeria.

What is Zergoun Green Energy doing in Algeria?

In order to meet the growing needs of the Algerian and African solar sector, Zergoun Green Energy has also created a joint venture with Greek company Elvan to set up a production plant for metal mounting structures in Ouargla to supply the Algerian, Greek and African markets.
