Asia Communications 5G Base Station Subsidy

Overview

What is the 5G subsidy scheme?

Launched in July 2025 and managed by the Office of the Communications Authority ("OFCA"), the Subsidy Scheme to Extend 5G Coverage in Rural and Remote Areas ("Scheme") provides financial support to MNOs.

Does OFCA offer a 5G subsidy scheme?

OFCA has launched a subsidy scheme to help mobile network operators install 5G base stations in rural and remote areas.

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

What is a radio base station subsidy & how does it work?

Under this Scheme, subsidies are reimbursed, subject to a cap, to help install new radio base stations ("RBS") at about 50 sites across different districts. These sites will be situated in country parks, outlying islands and other rural and remote areas, significantly enhancing mobile communications services in these regions.
