

# Australia Solar Inverters

## Overview

---

Who makes Australian solar inverters?

Fronius, an Austrian-engineered company, is a favourite among Australian solar installers and homeowners alike. Founded in 1945 with battery charging systems they have has a strong presence in solar inverters since 1992, even earning gold n the 2023 and 2024 SolarQuotes Installers' Choice Awards.

How much does a solar inverter cost in Australia?

Solar power saves over 3.4 million Australian households \$1,600-\$2,000 annually on electricity bills at \$0.20-\$0.35/kWh, but the inverter, the heart of a 6.6kW system (\$5,000-\$10,000), ensures efficient energy conversion. Choosing a high-quality inverter maximizes output and reliability in Australia's diverse climates.

What types of solar inverters are available in Australia?

The Australian market offers a variety of inverter types, each suited to different system requirements and site characteristics: String Inverters: These are the most common type, where multiple solar panels are connected in series to form "strings," which then feed into a single central inverter.

Do solar inverters comply with Australian standards?

Furthermore, strict compliance with Australian standards, particularly Clean Energy Council (CEC) approval and Smart Inverter Standards (AS/NZS 4777.2), is a non-negotiable requirement to ensure the safety, efficiency, and grid compatibility of any solar installation.
