

Australia small solar container outdoor power manufacturers

Overview

What is a solar skid shipping container?

At SCS Australia, we provide advanced solar skid shipping containers designed to deliver reliable, renewable energy wherever you need it. Perfect for remote projects, off-grid living, and temporary sites, these containerised solar systems combine durability, portability, and sustainable performance.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

.

What is a containerised mobile solar power generator?

It is the first containerised mobile solar power generator that is specially designed for fixed deployment. This system is suitable for both on-grid and off-grid use, and can be redeployed in less than 24 hours without the need for specialist labour.

What is a caps mobile solar power generator?

The CAPS Mobile solution is a solar power generator in the form of a shipping container that comes pre-wired, pre-connected together with batteries and which can be deployed in less than 2 hours. The container is fitted with an insulated, air-conditioned control cell, helping to extend the lifespan of the unit's components.
