# **BESS in Bergen Norway sells brand new uninterruptible power supply wholesale**

## Overview

---

In today's connected world, keeping BESS systems online is critical to unlocking their full potential. At Pixii, we recognize that uninterrupted, secure connectivity is the cornerstone of maximizing ROI through our v.

Why do we need a Bess system?

By doing so, it ensures that energy resources are utilized more efficiently, minimizing waste and improving the overall efficiency of energy production and distribution. The BESS also offers significant operational flexibility, allowing it to adapt to varying energy demands and supply conditions quickly and effectively.

Why is Bess so important in the Nordic region?

As the Nordic region continues its transition towards renewable energy, this strategic shift in BESS deployment is becoming increasingly critical. Finland, for example, is on the verge of a major increase in battery demand.

Which markets are included in Bess?

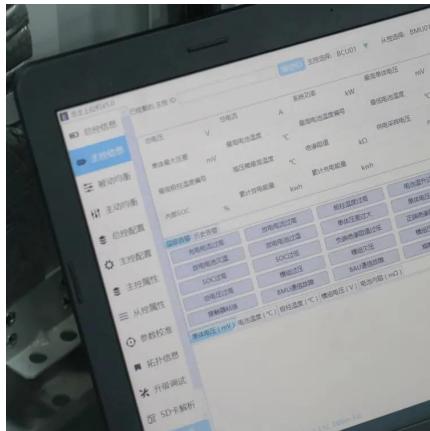

The wholesale markets are included as well, being the day-ahead and intraday electricity markets, where BESS can reduce wide spreads in electricity prices across the day. As the Nordic region continues its transition towards renewable energy, this strategic shift in BESS deployment is becoming increasingly critical.

What is Bess Powerbox by capture energy?

BESS PowerBox by Capture Energy is a stable, smart and superior energy station suitable for both corporate and industry loads as well as the flexibility market.

## BESS in Bergen Norway sells brand new uninterruptible power supply

### Battery modules for energy storage - sustainable, safe and Norwegian

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell ...
