

# Barbados solar container outdoor power Trading Center

## Overview

---

Is Barbados a leader in solar energy?

Continue reading → Barbados continues to maintain a leadership position in solar energy within the Caribbean. Building on a successful Renewable Energy Rider program which has seen 9MW of distributed solar PV installed, the electricity market has finally opened up to independent power producers (IPPs) to develop utility scale solar projects.

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is “high”. If you could purchase a. Continue reading →.

Can Barbadians earn passive income from solar panels?

Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project and thereby earn solar passive income for 25. Continue reading → Getting involved in the funding of the global solar power transition has never been easier.
