

Battery energy storage investment funds

Overview

What's going on with energy storage investment in 2024?

Private equity and venture capital investments in the battery energy storage system, energy management and energy storage sector so far in 2024 have exceeded 2023's levels and are on pace to reach one of the highest annual totals in five years.

Which sector has the most battery energy storage deals?

The industrial sector secured the most battery energy storage system deals, followed closely by the energy and utility sector. In the largest transaction, battery storage company NineDot Holdings Inc. raised \$225 million in a round of funding led by Manulife Investment Management Ltd., with participation from existing backer The Carlyle Group Inc.

Should you invest in lithium battery ETFs?

Investing in lithium battery ETFs may pose risks due to market volatility and the young industry status. Lithium-ion batteries are already in widespread use, thanks to smartphones and tablets. Now the technology is gaining ground in the automotive industry.

What is the iShares energy storage & materials ETF?

The iShares Energy Storage & Materials ETF seeks to track the investment results of an index composed of U.S. and non-U.S. companies involved in energy storage solutions aiming to support the transition to a low-carbon economy, including hydrogen, fuel cells and batteries.
