Belgian Sunshine Energy Storage Power Supply Customized Factory

Overview

How much power will Sungrow supply in Belgium?

The system will be one of the largest ever installed in Europe with a power capacity of 200MW/800MWh and is the first BESS project Sungrow will supply in Belgium. Set for a grid connection in 2025 this project will deliver power to up to 96.000 households.

Why is battery storage important for Belgium's energy transition?

Upon completion of the second 400MWh phase by the end of 2025, the entire installation will be providing clean, stable power for about 96,000 homes and helping stabilize Belgium's power grid. Battery storage is one of the most vital, yet too often overlooked, pieces of the energy transition jigsaw," said Moritz Rolf, Sungrow Europe Vice President.

Which energy storage system will Sungrow supply for Engie Bess project?

Sungrow will supply 320 units of its advanced liquid-cooled energy storage system, PowerTitan, for the ENGIE BESS project in Vilvoorde. The PowerTitan offers an efficient, safe, and innovative solution that enables ENGIE to deliver reliable energy.

What is bstor & Energy Solutions Group doing in Belgium?

BSTOR and Energy Solutions Group have started building BESS projects totalling 440MWh of capacity in Belgium, using Tesla Megapacks.
