

Cape Town high frequency solar container system solar container system

Overview

What are solarepc containers?

The containers are fully integrated plug-and-play off-grid systems with many advantages. SolarEPC container solutions offer the quick installation of a modular, off-grid, solar power system. These mobile systems are ideally suited for remote locations, rural electrification and temporary installations.

What is solar EPC's scalable lithium-ion containerized energy storage system?

Solar EPC's scalable Lithium-Ion Containerized energy storage system ideal for off-grid and renewable energy storage provides invaluable flexibility.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
