

Cost of a 100kW photovoltaic container on a Middle Eastern island

Overview

How many solar panels are installed in the Middle East in 2022?

Photovoltaic (PV) solar panels held a share of more than 96.57% of the total Middle Eastern solar energy installed in 2022. The solar PV installed capacity of the Middle East grew to 12.440 GW in 2022, which is higher compared to the 9.239 GW installed in 2021.

What is the Middle East solar power market?

The Middle East Solar Power Market is Segmented by Technology (solar photovoltaic (PV) and concentrated solar power (CSP))and Geography (Saudi Arabia, the United Arab Emirates, Oman, and the rest of the Middle East). The report offers the market size and forecasts in installed capacity (gigawatts) for all the above segments.

Will solar power grow in the Middle Eastern Region?

With several projects under construction or in the tender phase in countries like Saudi Arabia and the United Arab Emirates, considerable growth in solar PV is expected to drive the solar power market in the Middle Eastern region over the forecast period.

How many solar panels will Oman produce in 2023?

January 2023: Oman Power and Water Procurement Company (OPWP) announced solar energy projects Manah 1 and 2 worth USD 777 million. The project is likely to procure 2 million solar PV panels. It will jointly produce a total of 1,000MW, which is set to come up by the end of 2025 on a 15 million sq m area within the Governorate of A'Dakhiliyah. 1.
