# **Direct sales of household energy storage power supplies in Asia**

## Overview

---

Will India see a demand for energy storage systems in Asia-Pacific?

The JV intends to offer the solution to ReNew, with 150 MWh BESS required for its 300 MW peak power project in Karnataka. Therefore, based on the above mentioned factors, India is expected to witness significant demand for energy storage systems market in Asia-Pacific region.

What is India's energy storage capacity?

The country has a pumped storage capacity of 4.8 GW (end of 2021). Hydropower accounts for 12% of India's total capacity, with 51.4 GW. Thus, new initiatives and projects are expected to drive the energy storage systems market.

Will pumped-storage hydroelectricity dominate the market over the forecast period?

The pumped hydro energy storage (PHES) facility has a maximum power output of 1.5MW and uses two farm dams to store 30MWh of energy (15 hours duration). Therefore, based on the above-mentioned factors, pumped-storage hydroelectricity is likely to dominate the market over the forecast period.

Will renew power provide energy storage solutions in India?

In January 2022, ReNew Power announced plans to set up a joint venture (JV) with US-based Fluence to provide energy storage solutions in India. The JV intends to offer the solution to ReNew, with 150 MWh BESS required for its 300 MW peak power project in Karnataka.

## Direct sales of household energy storage power supplies in Asia

### [Asia-Pacific Energy Storage Systems Market ...](#)

The Asia-Pacific Energy Storage Systems Market is growing at a CAGR of greater than 20% over the next 5 years. Tesla Inc, Contemporary Amperex Technology Co Ltd, Voith GmbH & Co. KGaA, Siemens ...
