Distribution of solar container lithium battery charging stations in Egypt

Overview

How many fast electric charging stations are there in Egypt?

The localization strategy is based on a set of important pillars, which are the establishment of 1,000 fast electric charging stations annually. This research presents the development of charging stations in Egypt and the current capabilities available.

Which companies charge EV in Egypt?

There are also many companies working in the field of charging EV in Egypt, and the study showed that the two largest EV charging companies in Egypt are Infinity and Revolta. All charging stations are AC i.e. slow charging, while several DC charging stations i.e. fast charging under erection at the moment.

Are electric vehicle charging stations a good idea in Egypt?

As Egypt accelerates its transition to clean energy, the demand for reliable and accessible electric vehicle charging stations is at an all-time high. Whether you're a current EV owner or planning to make the switch, understanding the charging infrastructure is essential.

How much does EV charging cost in Egypt?

Infinity, a company working in the field of renewable energy solutions, announced the start of implementing EV charging tariffs at all charging stations in Egypt, starting 28 June , 2022. The charging tariff for AC, up to 22 KW starts from 1.89 pounds /KWh. To calculate the charging cost, this value is multiplied by the battery capacity.
