

Does the refrigerated container have its own generator

Overview

Should you rent or buy a generator for a refrigerated shipping container?

A commercial generator for your 20ft or 40ft refrigerated shipping container will give you the protection and peace of mind you need. But how do you know which one to pick?

We'll discuss the important factors you need to consider whether you rent or buy a generator for your reefer containers. What is a refrigerated shipping container?

.

Do refrigerated containers have generators?

Some refrigerated containers feature built-in generators. These allow for independent power generation during transit or in areas without external power access. Operators can use diesel generators in remote locations or when stationary power is unavailable. These portable units provide energy to keep the cooling system running.

Do reefer containers use generators?

For transportation by road or rail, reefer containers often use a diesel-powered generator set (gen-set). These gen-sets are mounted on the container or the transport vehicle, providing a reliable power source throughout the journey.

Do you need a commercial generator for a shipping container?

When your company's future, your patients' wellbeing, and the perishable goods in your inventory are all on the line then you can't risk a power outage. A commercial generator for your 20ft or 40ft refrigerated shipping container will give you the protection and peace of mind you need. But how do you know which one to pick?
