

East Asia rooftop solar panels

Overview

How is the Asia-Pacific rooftop solar market segmented?

The Asia-Pacific Rooftop Solar market is segmented by End-User (Residential, Commercial, and Industrial) and Geography (India, China, Japan, Australia, and the Rest of Asia-Pacific). The report offers the market size and forecasts in installed capacity (Giga-Watt) for all the above segments.

Can rooftop solar be deployed in China?

This study moves beyond technical estimates to assess the deployable rooftop solar potential across 367 Chinese cities, factoring in real-world constraints. The findings offer actionable insights to guide strategic deployment and support China's ambitious solar energy goals.

Which countries have pioneered rooftop solar energy adoption?

This is an extract from a recent report "Global Perspectives on Rooftop Solar Energy: A Deep Dive on How Leading Economies Advance Rooftop Solar Energy Adoption" by CEEW. In this extract, we specifically focus on China and Japan. China has been pioneering the rooftop solar revolution.

Why is rooftop solar PV gaining popularity in Asia-Pacific?

The rooftop solar PV market is one of the fastest-growing clean energy technologies in Asia-Pacific commercial and industrial segments. The increasing popularity is due to the increasing government supports in incentives and financial assistance like tax benefit for installation.
