

# Eastern European polysilicon solar panel manufacturers

## Overview

---

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing.

Can the EU revive solar PV Manufacturing in Europe?

The EU's opportunities are now aligned with the Clean Industrial Deal proposed by the EU Commission, which should help revitalize the Solar PV manufacturing in Europe, although more support measures will still be needed. Kivanc has been added to this edition of Sinovoltaics' Solar Supply Chain Map.

What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

Can European solar production underpin resilience?

A new market analysis from SolarPower Europe highlights the potential of European solar production to underpin the resilience of the European sector. SolarPower Europe has published a new report mapping Europe's solar PV module production equipment capacity.
