

Energy Storage Power Plant in Chiang Mai Thailand

Overview

Are there grid-scale energy storage projects in Thailand?

There are currently few grid-scale energy storage projects in Thailand, although the situation is likely to change. In furtherance of its commitments under the Paris Agreement, the Thai government has enacted policies which envisage renewable energy accounting for the majority of grid capacity and output by 2040.

What is Chiang Mai waste management plant?

The plant aims to provide an efficient waste management solution for Chiang Mai. Mr Tosapol, deputy governor of Chiang Mai, said it is national policy for local authorities to manage community waste.

How long will a Thai-Chinese waste-to-energy power plant take?

The Chiang Mai Authority has backed a Thai-Chinese waste-to-energy power plant that is expected to take two years to complete.

Is energy storage a new business model in Thailand?

Energy storage is in its infancy in Thailand, and new business models are already emerging. As the regulatory framework adapts to accommodate new players in the market, we expect to see greater penetration in this area. Notes Energy Policy and Planning Office, Ministry of Energy, electricity statistics
