

Energy storage equipment battery warranty period

Overview

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important?

A battery storage system is a decades-long investment that a warranty can help protect.

How long does a battery warranty last?

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.

What is the warranty period for the battery pack?

The warranty for the UH9050's battery pack is 5 years. The warranty for the accessories is 1 year. This warranty is only valid in the original country of purchase for a Product first purchased either in Australia or New Zealand. If a warranty claim is made, this warranty will not apply if the Product is found by Uniden to be damaged or not in compliance with the user manual.
