

Estonia solar container lithium battery factory

Overview

Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

How will a battery energy storage park work in Estonia?

The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC underground cable, marking a first in Estonia. Baltic Storage Platform confirmed that the BESS will seek to ensure the stability and resilience of the Estonian electricity grid.

Who owns the Battery Park in Estonia?

The battery park will be called the Baltic Storage Platform, in which Evecon will have a 20 percent stake and Corsica Sole will have 80 percent stake. Climate Minister Kristen Michal (Reform) said that the emergence of reserve and storage capacities in Estonia is good news and it is particularly welcome that it is being done by private companies.

Why is Estonia building the largest Battery Park in Europe?

Estonia is building the largest battery park in continental Europe, boosting energy security and supporting the transition to renewables.
