

Factory price 5.5 kw inverter in Korea

Overview

What is the 5.5kW Hybrid Inverter?

The 5.5kW Hybrid Inverter is a mid-range on-grid parity inverter that is our best-selling model with 2 MPPT ports. It is perfect for most applications, especially for domestic premises with sufficient roof space for solar or wind power.

How much does a 5kw solar inverter cost?

For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA). If you want a 3-phase, 5kW inverter; add around \$400 to those prices.

What is the weatherproofing rating of the 5.5kW inverter?

The 5.5kW inverter is our best-selling hybrid inverter with 2 MPPT ports. It is perfect for most applications. It carries a weatherproofing rating of IP65 and is fitted with 2 x MPPT ports. The size is aimed at domestic premises with sufficient roof space for solar or wind power.

Is a 5 kW inverter worth it?

It could be that the system will spend such little time providing above 5 kW, once shading and losses are taken into account, that it's not worth the cost of getting the next-largest inverter.

Factory price 5.5 kw inverter in Korea

Wholesale Inverter 5.5 Kw Supplier and Manufacturer, Factory ...

Get the best prices on 5.5 kW inverters with wholesale deals direct from the factory. We are the leading supplier of high-quality inverters.
