Funafuti Large Energy Storage Equipment Factory

Overview

What is Xinhua megafactory?

Xinhua The Megafactory is the first of its kind built by Tesla outside the United States and is dedicated to manufacturing Megapacks, Tesla's energy-storage batteries. Mass production at the Shanghai facility is expected to fully commence in the first quarter of 2025, Tesla said.

What is the Shanghai megafactory?

The Shanghai Megafactory primarily produces the Megapack, an ultra-large commercial energy storage battery, for the global market. The Megafactory's annual production capacity for Megapacks is 10,000 units, with a storage capacity of nearly 40 GWh, Tesla said previously.

What is Tesla's Shanghai megafactory for energy storage?

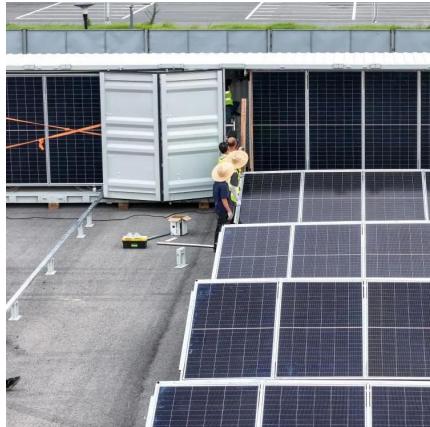

The Shanghai Megafactory for energy storage is Tesla's first such facility outside the United States. Construction commenced in the Lin-gang Special Area on May 23 last year, and the factory achieved the milestone of producing its first product just nine months after acquiring the land.

Will the Shanghai Gigafactory bolster Tesla's production capabilities?

The Shanghai Gigafactory is set to bolster Tesla's production capabilities, contributing significantly to the company's revenue growth, which saw a 52.4% year-on-year increase in the third quarter of 2024. The energy division, now boasting a record 30.5% gross profit margin, underscores the financial viability of Tesla's energy initiatives.
