

Guatemala City new energy solar panels power generation

Overview

Does Guatemala have solar energy?

Notably, Guatemala has seen previous ventures into solar energy, including the announcement of a 5 MW photovoltaic project in 2014 and a subsequent tender for a 110 MW project in 2019, which was later cancelled. As of 2023, the country had an installed photovoltaic capacity of 105 MW, according to IRENA statistics.

How much solar power will Latin and Central America have by 2050?

The PV capacity of Latin and Central America could read 280GW by 2050, according to IRENA. Image: BMR Energy Dutch clean energy developer MPC Energy Solutions has started construction of a 65MWp solar project in Guatemala, and plans to commission the project by mid-2025.

What is enerland group doing in Guatemala?

Enerland Group, a Spanish firm, has announced its expansion into Guatemala's renewable energy market with the inauguration of its headquarters in the country and the commencement of construction on its inaugural photovoltaic park, Magdalena Solar, boasting a capacity of 66 MWp.

How much electricity does Magdalena Solar generate a year?

Expected to be operational by mid-2025, Magdalena Solar is projected to generate approximately 141 GWh of electricity annually.
