

High quality lfp powerstation in Sweden

Overview

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

Where is Svenska Kraftnät power plant located?

Located in Ragunda, Jämtland County, Sweden, the plant will have a capacity of 40 MW / 40 MWh. It will be connected to the 130-kV E.ON grid. The power plant is expected to come online within the next few weeks and will also provide Svenska Kraftnät, the Swedish transmission system operator, with ancillary services.

What is a LFP battery?

LFP stands for Lithium Iron Phosphate. It is a type of lithium-ion battery. It uses iron and phosphate as its main materials. These materials help make the battery safe and long-lasting. LFP batteries are known for their stability. They do not overheat easily, and they are less likely to catch fire. These batteries work well for many uses.
