

Huawei ASEAN Portable Energy Storage Power Supply

Overview

How does Huawei support ASEAN's energy goals?

With a focus on sustainability, Huawei is committed to supporting ASEAN's energy goals by providing cutting-edge technologies that promote efficiency, reliability, and the development of green, smart infrastructure across the region.”.

What is the ASEAN Energy Data Centre?

The ASEAN Energy Data Centre, jointly developed by ACE and Huawei, was unveiled, marking a key advancement in regional energy collaboration. This facility embodies the commitment to digital transformation and energy management in ASEAN, serving both as a hub of technological innovation and a catalyst for setting regional policies and standards.

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.
