

# Huawei installs solar panels in Croatia

## Overview

---

Will Croatia get 1 GW of solar power by 2025?

Croatia is on pace to surpass 1 GW of solar power by 2025, thanks to a surge in installations and supportive government policies. This growth is part of the country's broader commitment to renewable energy and aligns with EU targets to boost the share of renewables in electricity generation.

Will Croatia build a 950 MW solar facility?

A proposal to build a 950 MW solar facility has been submitted to the Croatian authorities by El Sun Energy d.o.o. The solar park is planned to be located in the county of Šibenik-Knin in southern Croatia.

Why is solar power important in Croatia?

The growth of solar power in Croatia is also creating new economic opportunities. The renewable energy sector can generate jobs in manufacturing, installation, and maintenance, while the increased use of solar power can lead to significant cost savings for consumers and businesses through lower electricity bills.

Can agrivoltaic installations be deployed in Croatia?

The Croatian government has adopted bylaws to the Spatial Planning Act that define agrivoltaic installations and the areas in which they can be deployed, in order to facilitate future deployment.
