# **Installation of wind and solar complementary equipment for Sri Lankan solar container communication station**

## Overview

---

Energy can be harnessed directly from the sun, though only slightly during cloudy weather. Solar energy is used worldwide and is increasingly popular for generating electricity or heating and desalinating.

How Sri Lanka is promoting solar energy?

The Sri Lankan Government and the Ministry of Power have launched some programs to promote this clean, renewable energy resource, solar, in collaboration with Sri Lankan sustainable energy authority. Soorya Bala Sangramaya is one of the most popular programs the Sri Lankan government launched to promote solar energy in Sri Lanka.

What are the different types of solar power systems in Sri Lanka?

We explored the different types of solar power systems, such as on-grid, off-grid, and hybrid systems, along with their advantages and disadvantages. We proposed several recommendations to promote the installation of solar panels in Sri Lanka.

How to promote the installation of solar panels in Sri Lanka?

We proposed several recommendations to promote the installation of solar panels in Sri Lanka. These recommendations included new government building approvals, direct involvement from the government, the starting of new industries, etc.

Does Sri Lanka have a net metering scheme?

Sri Lanka has put in place a net metering scheme that allows people to install solar panels and sell any extra electricity they produce back to the national grid in order to encourage the use of solar energy. This method promotes the use of green energy, reduces electricity costs, and adds to the nation's energy supply.
