

Inverter input 220v output i380

Overview

How much does a inverter input 220V to output 380V cost?

You can expect to pay between 50 to 2550 for each Inverter Input 220v To Output 380v. The cost of a Inverter Input 220v To Output 380v varies by the different parameters. Our electronics supplier database is a comprehensive list of the key suppliers, manufacturers (factories), wholesalers, trading companies in the electronics industry.

What are au400 series 220V to 380V frequency converters?

Features: AU400 series 220V to 380V frequency converters are specially developed by us for occasions where three-phase power is lacking. With multiple protection methods and excellent driving performance, they can solve the difficulty of users lacking 380V power.

Why should you buy a 380V power supply?

With multiple protection methods and excellent driving performance, they can solve the difficulty of users lacking 380V power. The wiring connecting is simple and easy to understand, and the operation is convenient and practical.
Technical Specification

Inverter input 220v output i380

[Input 220V Single Phase Output 380V Frequency Inverter](#)

Input 220V Single Phase Output 380V Frequency Inverter, Find Details and Price about Inverter Frequency Inverter from Input 220V Single Phase Output 380V Frequency ...

[Get Price](#)

[220V Input 380V Output Motor Drive Inverter Single to ...](#)

It supports single-phase 220V input and delivers three-phase 380V output, which allows the direct use of standard three-phase motors in environments where only single-phase ...
