

London base station solar energy storage

Overview

What is solar & storage Live London?

Solar & Storage Live London showcases global solar and energy storage solutions alongside complementary products and services for residential, commercial, industrial and large-scale utility projects.

Where is the Warley battery energy storage project located?

The Warley Battery Energy Storage project is located at Upminster on the outskirts of East London. The project is on National Grid land adjacent to its 275kV Warley substation. It will connect directly to the London electricity distribution circuit and serve to balance supply and demand in London. Biodiversity benefits.

When is solar & storage Live London 2026?

The April edition, Solar & Storage Live London, launched in 2024 and was an overwhelming success. Returning for its third year in 2026, the show is set to grow even bigger, featuring over 200 global exhibitors and 200 speakers. More than 10,000 industry professionals are expected to attend over the two days.

How many battery storage projects are there?

The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. This edition of the EnergyPulse report on Energy Storage shows there is 8.7GW of batteries in operation and under construction and more than 30GW projects have now been consented.
