

# Malaysia Penang solar module exports

## Overview

---

Should Malaysia export solar panels?

The minister emphasised that besides solar panel exports, Malaysia is also strong in the E&E sector and should consider expanding into other consumer products. Previously, the US announced a tariff hike on solar equipment exported from Southeast Asia to protect its domestic industry.

How many solar panels did Malaysia export in 2023?

According to Volza's Malaysia Export data, Malaysia exported 6,558 shipments of Solar Panel from Nov 2023 to Oct 2024 (TTM). These exports were made by 566 Malaysia Exporters to 878 Buyers, marking a growth rate of 269% compared to the preceding twelve months.

What is the solar photovoltaic market outlook in Malaysia?

The solar photovoltaic market in Malaysia has been influenced by government incentives and policies promoting renewable energy sources. The country has become a hub for solar panel manufacturing and exports. The market outlook depends on regulatory support, technological advancements, and the integration of solar power into the energy grid.

Is Malaysia a logistics hub for solar panels?

28 Oct 2024 Malaysia continues to serve as a logistics hub for solar panels amid the United States' (US) tariff hike on solar equipment from Southeast Asia, said Transport Minister Anthony Loke.
