

Maseru 5G solar container communication station inverter grid-connected construction project

Overview

What is 5G power & iEnergy?

Fully meet the requirements of rapid 5G deployment, smooth evolution, efficient energy saving, and intelligent O&M. Including: 5G power, hybrid power and iEnergy network energy management solution. 5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction.

What is a 5G solar power platform?

Hybrid power: On the basis of 5G power platform, solar power is smoothly introduced. In areas with good grid, the solutions upgrade smoothly among grid, solar hybrid and pure solar power to achieve low-carbon and zero-carbon.

What is a macro station?

For a macro station, the station is built in the form of one cabinet, highly integrated with the power system, batteries and telecom equipment, and it is simple, integrated and economical.
