

# Motor circuit breaker factory in Canberra

## Overview

---

What is a motor circuit breaker?

Ensure the safety, reliability, and efficiency of your motor systems with our robust and versatile solutions. A Motor circuit breaker is a device integrating Low voltage circuit breakers and Thermal Overload Relays functions. This device is capable of protecting the motor branch circuits from overload, phase-loss, and short-circuit alone.

What is a motor protection circuit breaker?

Our top-of-the-line motor protection circuit breakers (MPCBs) are designed to provide comprehensive protection for your motors against overloads, short circuits, and phase failures. Ideal for a wide range of industrial and commercial applications, our MPCBs ensure the safe and efficient operation of your motor systems.

Why do you need a motor circuit breaker & switch?

Give your motor equipment the protection it needs by installing quality motor circuit breakers and switches. Our range has a high breaking capacity at a very compact design. Use it to give your motor equipment dedicated protection and to ensure service continuity. Energy continuity is critical on large sites.

What are nhp circuit breakers?

NHP's range of circuit breakers features a complete range of quality products for the protection of an electrical installation against overcurrent's and short circuits in industrial, commercial, and domestic applications.
