

New Delhi Solar Power Generation System

Overview

How much solar power will Delhi have by 2027?

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar outside the state by 2027 under the new Solar Energy Policy 2023.

What is Delhi solar energy policy 2023?

The Delhi Solar Energy Policy 2023 (hereafter, 'the policy') was notified in March 2024 with the goal of increasing installed rooftop solar capacity to 750 MW within the state and accessing utility-scale solar capacity of 3,750 MW from outside the state.

What is solar energy policy in Delhi?

This policy will apply to any solar energy generating system with a capacity of 1 kWp or more. It applies to all electricity consumers and entities that set up or operate solar power projects in Delhi.

Are there alternative options for solar energy in Delhi?

According to the latest guidelines issued by the Delhi Electricity Regulatory Commission (DERC), they would now have alternative options to access solar energy. Under the new regulations, consumers with limited rooftop space can opt for group net metering and community solar models.
