The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

ABSTRACT: The last calls of the EU 7th Framework Programme for research have been already published. About EUR 195 million have been invested in research and ...

In 2023, the solar photovoltaic sector in the EU and globally saw the prices of the panels plummet from ca. 0.20 EUR/W to less than 0.12 EUR/W. This unsustainable situation is ...

A large, white, industrial-grade battery storage unit is shown in a warehouse setting. The unit's double doors are open, revealing a dense array of orange and black battery modules inside. The unit is labeled 'YJCU 24 45' and 'MAGNETIC TAPE ARCHIVE'. A yellow warning triangle is visible on the right door. A white cable is connected to the unit, and a small brown box sits on the floor nearby.

Powered by GermanSolarZA

Solar energy is one of the world's most abundant and easily accessible sources of renewable power. But how well do you know it? Several distinct technologies harness the ...
