# Prague 5G solar container communication station location

## Overview

---

Does Czech Republic have a 5G network?

The public 5G networks in the Czech Republic currently operate on a non-standalone (NSA) 5G architecture, which is built on top of the existing 4G LTE infrastructure. To date, standalone (SA) 5G networks have been deployed primarily as private "campus" solutions.

Which mobile networks cover the most populated areas in the Czech Republic?

All mobile network operators (MNOs) have deployed 5G networks focusing on coverage of the most populated areas and specifically cities. Vodafone covers over 96.47%, O2 over 93.56% and T-Mobile 93.40% of the population in the Czech Republic (data as of 1 November 2024).

Where is Vodafone launching a 5G mobile private network?

Vodafone has launched a 5G mobile private network (MPN) at Temelín Nuclear Power Plant in Czechia – the first of its kind in Europe – for the power generation conglomerate ČEZ Group. As part of a pilot phase, Vodafone's 5G MPN covers the power plant's outdoor space, as well as selected areas of a production unit.

Why does Vodafone Czechia have a private 5G network?

Violeta Luca, CEO of Vodafone Czechia said: "By being entirely independent from the public network, our private 5G solution ensures that all user data and infrastructure are securely managed within the power plant's own systems, which is vital for maintaining the highest standards of safety and reliability."
