

# Price of a 40-foot mobile energy storage container in the United States

## Overview

---

How much does container shipping cost?

China-Europe rates are around \$3.70/kg, China-North America at \$5.30/kg, and Southeast Asia-North America at \$4.63/kg. Use the cost calculator and keep up to date with container shipping pricing trends to get a better idea of what your total landed costs will be. China - N. America weekly prices dropped 5% to \$ 5.30/kg.

How much does a full container load cost?

FCL: For international moves, a full container load charges about \$4000 which is approximately 27-30% more than LCL. LCL: Likewise, less than a container load costs about \$1600 for an overseas move which is less expensive than FCL. Do you plan any shipments?

.

What is a standard container size?

The standard container dimensions are 20 and 40 feet. But there are also other variations, including different sizes and refrigerated units. The global freight industry is dictated by basic economics. During the busiest shipping seasons, container rates go up – sometimes substantially.

Why are container shipping rates important?

Container shipping rates hold significant importance when it comes to moving containers from the port of origin to the port of destination. That's because these container freight prices will affect the whole process of transportation in any part of Europe and Asia. Additionally, they can impact:
