

Price of portable solar panels

Overview

Are portable solar panels a trend?

Portable solar panels (and the portable power stations they're sometimes paired with as solar power generators) mirror trends in rooftop solar panels and solar batteries. One trend is that your options are rapidly expanding.

How much do solar panels cost?

For example, you can get the 200-watt Jackery SolarSaga 200 for \$699, or \$3.50 per watt. Or, you can get the 350-watt Bluetti PV350 for \$677 (when discounted), or \$1.93 per watt. The panels we tested for this list ranged from 50 watts to 350 watts.

Are portable solar panels more mobile?

Some portable solar panels are more mobile than others. The panels that can produce the amount of electricity that you need to power many devices and/or appliances are generally quite large—at least a few feet across and a foot or two high: A larger panel allows you to absorb more energy.

Are portable solar panels a good idea in 2025?

You'll find portable solar panels have evolved considerably in 2025, offering unprecedented efficiency for off-grid adventures and emergency backup power. Whether you're planning a remote camping trip or setting up a sustainable home system, today's solar technology delivers more power in smaller, lighter packages.
