

# Professional solar container lithium battery bms management system in Monterrey Mexico

## Overview

---

What is a battery management system (BMS)?

Voltaplex is proud to design and manufacture battery management systems (BMS) that optimize lithium-ion battery packs' safety, reliability, and performance. We engineer our solutions for seamless integration across various industries, including robotics, automotive, and medical devices.

What is voltaplex BMS?

**Industrial Energy Storage:** Voltaplex's BMS maintains safety and longevity in backup systems and off-grid power units by monitoring high-capacity lithium-ion battery management systems with scalable, remote diagnostics.

**Aerospace and Defense:** Our BMS design provides rugged, high-reliability power for drones, avionics, and tactical gear.

What is inside a voltaplex BMS battery management system?

Inside every Voltaplex BMS battery management system is a purpose-built core. This core contains microcontrollers, precision voltage sensors, temperature monitors, balancing circuits, and communication protocols tailored to you and your industry's needs.

Should you use a battery management system?

When you need a BMS design that you can count on – no matter how demanding the application – Voltaplex's battery management system ought to be your go-to choice. Lithium-ion applications come with pretty unique electrical demands. That's why a one-size-fits-all battery management system simply won't cut it.
