Should you buy a portable PC case?

The modern world is all about flexibility—whether you're hopping between gaming tournaments or need a compact workstation that's easy to transport. For PC enthusiasts who love to bring their setup wherever they go, a portable PC case is the answer.

What is the best portable PC case?

The In Win is the best portable PC case for those who don't have much free space. The case has a rugged build and a very stylish look. Although its dimensions are very compact, it has enough space for a great variety of components. The great advantage of the In Win is that it can fit any environment.

What makes a good PC case?

The best PC case for you will dictate the system's size, shape, and looks, and what fits inside. The PC case is also a major factor in how quiet your system will be (or how noisy it can get) under load, thanks to any included fans, plus materials like metal mesh or glass panels. These aspects also hugely impact the cooling potential of your rig.
