

# Saudi Arabia s industrial and commercial grid-side energy storage investment

## Overview

---

What is Saudi energy mix?

Saudi's optimal mix involves renewables accounting for 50% of electricity generation by the end of the decade. The new energy storage systems will be installed across five locations in the Kingdom and fully integrated into the national power transmission network.

What makes BYD a great energy storage company?

With 17 years of innovation in the energy storage sector, BYD has delivered more than 75GWh of BESS equipment to more than 350 projects in 110 countries and regions. The company's philosophy of being Technology-based, Innovation-oriented has fuelled breakthroughs across generation, utility and consumption applications.

What is BYD energy storage & SEC doing?

A milestone in global energy storage BYD Energy Storage and SEC have signed a landmark contract for what is now the world's largest grid-scale energy storage project, with an initial capacity of 12.5GWh. Combined with a previously delivered 2.6GWh project, the total collaboration has reached a record-breaking 15.1GWh.
