

Service Energy Storage Charging Station in Antwerp Belgium

Overview

How do charging stations work in Antwerp?

Charging stations in Antwerp are operated by different providers. It is also possible to access a charging station using a charging card from a different provider, but you always pay the rate applied by the provider of the charging station in question. What are the rates?

Each provider applies its own rate.

How do I find a charging station in Antwerpen?

You can use the filters on the mobile app or web map to sort Antwerpen charging stations by your electric vehicle's plug type, network or provider, charger status, location, etc. If you simply want to know where charging stations are located in your area, you can use the Electromaps application to search for your nearest charging station.

How many rapid charging stations in Antwerpen?

There are currently 145 rapid charging stations in the city of Antwerpen. To find them, go to the charging station map, enter the location, and set at least 43kW in the "Minimum charging power" filter. The charging rate depends on the network you use to charge your electric vehicle.

How many electric vehicle chargers are there in Antwerpen?

Most of the electric vehicle chargers in Antwerpen are TYPE 2 and there are 35,989. At each charging point, you'll find information on the type of electric charger and the price of a charging session for your electric vehicle.
