

Solar garden light over 300 watts

Overview

What are the best solar powered outdoor garden lights?

The Solpex Solar Globe Lights and Forlivese Solar Powered Sunflower Lights are solar powered garden lights that are popular for outdoor use. The Solpex Solar Globe Lights feature cracked glass balls with dual LEDs and color-changing capabilities. The Forlivese Solar Powered Sunflower Lights are decorative garden stakes with solar LED pathway decor lights and solar flowers.

How long does a solar garden light last?

LONG TIME WORK – Due to our 48,000mAh high capacity battery, our solar garden light can keep lighting up to 12 hours under fully charged condition, and the double MPPT patent charge controlling core ensures this solar light can be quick charged even in cloudy days.

What size batteries do solar garden lights use?

This is an important figure to match as the weak charger in Solar Lights struggles to charge higher capacity batteries. We stock most sizes of Solar Garden Lights - 1.2V rechargeable batteries in AA, AAA, 2/3AA, 2/3AAA and 1/3AAA - we have a range of batteries that are direct replacements for the original batteries.

How much space can a solar lamp light up?

FLEXIBLE INSTALLATION – Our solar lamp can be pole-mounted and wall-mounted, very flexible for everywhere. The instruction and all accessories are included in the package. Designed for 3.0 - 5.0 meter (10 - 16 feet) mounted height. When the mounted height is 10 feet, it can light up 13*23 feet of space.
