

Solar modules exported to North America

Overview

What is the sinovoltaics supply chain map - North America for Q2 2024?

June 1, 2024 The Sinovoltaics Supply Chain Map (SSCM) - North America for Q2 2024 includes several notable changes for the US solar market since our Q1 report, emphasizing the importance of supply chain traceability. Several new solar panel manufacturers and related PV factories have been added.

How did US solar panel imports perform in the first three months?

Source: jgroup/iStock/Getty Images Plus via Getty Images. US solar panel imports remained robust in the first three months of 2024, coming in just short of the prior quarter's record 15 GW and notching a 13.8% gain from a year ago, according to the S&P Global Market Intelligence Global Trade Analytics Suite.

Could a new trade case upend US solar imports from Southeast Asia?

US solar imports from Southeast Asia continue rising, but a new trade case could upend that trend. Source: jgroup/iStock/Getty Images Plus via Getty Images.

Which countries import the most photovoltaic modules?

Factories in four Southeast Asian countries — Vietnam, Thailand, Malaysia and Cambodia — accounted for 13 GW or 87.5% of the first quarter's total 14.8 GW of photovoltaic (PV) module imports.
