

Solar panels opened

Overview

Will Shanghai start a solar power project?

Shanghai will begin the first round of selections for offshore solar power generation projects with a minimum scale of 1 million kilowatts by the end of this year, according to the Shanghai Municipal Development and Reform Commission. The move is part of the country's stepped-up efforts to promote the development of offshore solar energy.

What's going on with offshore solar power in Shanghai?

An offshore PV company's booth is seen during a solar power expo in Shanghai in June. [CHINA DAILY] Shanghai will begin the first round of selections for offshore solar power generation projects with a minimum scale of 1 million kilowatts by the end of this year, according to the Shanghai Municipal Development and Reform Commission.

What is China's first centralized solar energy project?

This project is China General Nuclear Power Corporation's first centralized solar energy system project in Shanghai, with an installed capacity of 158 MW. It will be implemented in two phases.

Will China see another year of record solar installation?

Solar panels at a photovoltaic power station at the Dunhuang Photovoltaic Industrial Park in Dunhuang, Gansu Province, China, on Wednesday, Oct. 16, 2024. China is set to see another year of record solar installation as the nation pushes for a massive renewable buildout mainly in its interior. Photographer: Qilai Shen/Bloomberg

Solar panels opened

Solar panels Shanghai , Gränges

Since the beginning of 2023, Gränges Shanghai has secured 100 per cent renewable electricity supply from hydropower for our own production. Newly installed roof-top solar panels are also generating renewable electricity ...
