

South Africa ranks first in large energy storage cabinets

Overview

Who is delivering battery energy storage systems in South Africa?

Envision Energy, a leading global provider of energy storage solutions, has secured a major contract with EDF Group to deliver three battery energy storage systems (BESS) in South Africa. These systems, with a total capacity of 257 MW and 1028 MWh, represent the largest battery energy storage order in the country.

What is the largest battery energy storage system in Africa?

Unveiled in 2023, thanks to \$195 million from the International Bank for Reconstruction and Development (IBRD) and \$220 million from AfDB, this flagship project represents the largest battery energy storage system (BESS) on the African continent.

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

Does South Africa have a battery storage tender programme?

South Africa is aiming to procure utility-scale battery storage with two tender programmes: its Battery Storage IPP Procurement Programme as well as hybrid battery storage and variable renewables projects through its Risk Mitigation IPP Procurement Programme.
